

Lending overview

Our TPT Wealth team strives to make a real difference to the Broker experience; delivering Commercial and Business Loans combined with high responsiveness and a common sense approach.

Who we are

Since 1887, we have been part of the Australian financial landscape professionally managing and administering client's wealth. We have a very proud heritage and an equally exciting future.

TPT Wealth provides both individual and corporate customers with a range of services including Commercial Lending, Wills and Estate Planning and Investment Management.

We are an 'all Australian' based operation, for all transactions including the entire loan journey, from pre to post settlement, starting with local loan assessment to customer on boarding, then ongoing service, for both brokers and customers.

Our specialties

TPT Wealth is well experienced in lending for construction & property development, subdivision of land and self-managed super fund (SMSF) property purchases with long term 'interest only' periods for the majority of loans.

TPT Wealth offers a wide range of new products including alternative document loan, lease document loan and lite document loan. There are a number of flexible options to ensure the commercial loan best suits the customer's needs over the long term.

Our team

Our Relationship Managers possess many years of Business Lending experience and they take the time to understand your financial needs.

We use a common sense approach to support Australian Businesses and Investors. Everything we do is based on Relationships and we work hard to help our customers get to yes.

Our approach

At TPT Wealth, we know that every customer has a unique story and the application doesn't always fit the 'assessment' box. Every loan received is assessed individually, on its merits and if it's not a fit, we'll have a conversation with you to first. We'll discuss the options and find a 'Yes' if we can.
